

CONNECTING THE UNCONNECTED

HOW TO REINFORCE MULTI-LEVEL COOPERATION
FOR A GREENER FUTURE

SAVE THE DATE

IMEAS and C-TRACK 50 joint event
19 June 2019, Brussels

How does the EU commissioners know what the mayors need? How does a minister inform the regional development agency about national plans? How does a Local Energy Community get in contact with a state level agency?

In the different EU countries different governance levels have dissimilar backgrounds, conflicting mechanisms, incentives and reporting tools. The IMEAS and C-track 50 projects study the framework conditions for integrated energy transition. They provide tools and guidance for all governance levels.

Join us to find out how IMEAS, C-TRACK 50 and FEDARENE are supporting EU low carbon energy transition, attend the round table and visit our market place to test our tools and guidelines.

Register [HERE](#) and follow @IMEAS, @C-TRACK 50 and @FEDARENE.

19 June 2019
62, rue du Trône, Brussels
2:30 PM

- 2:30 - 3:00** *Presentations of the IMEAS and C-Track 50 projects*
- 3:00 - 3:30** *Presentations on Multi-Level Cooperation: linking the local, regional, national and European levels for an effective and coherent energy policy*
- 3:30 - 4:00** *Roundtable on Multi-Level Cooperation & Energy policy*
- 4:00 - 5:00** *Market Place - Visit the various tables focusing on different key topics: Energy and Climate Data Inventory - Real Low Carbon Model - IMEAS platform Energy modelling - Governance (IMEAS-C-Track 50)*
