IMEAS project

CONNECTING THE UNCONNECTED

HOW TO REINFORCE MULTI-LEVEL COOPERATION
FOR A GREENER FUTURE

IMEAS and C-TRACK 50 joint event
19 June 2019, Brussels

Brussels (BE), 19th June 2019

www.alpine-space.eu/imeas

This project is co-financed by the European Regional Development Fund through the Interreg Alpine Space programme

Overview

Our vision

To **support** territories in implementing successful **low carbon energy transition strategies**

by providing **guidance** to stakeholders, creating **links** and **connections**,
supporting cooperation in a **multi-dimensional and integrated perspective**

www.alpine-space.eu/imeas

This project is co-financed by the European Regional Development Fund through the Interreg Alpine Space programme

Overview

Connect
values and communities

Foster
cooperation and
knowledge exchange

Share
Knowledge, tools and
concrete practices

Set people into motion and
find multidimensional and
cooperative approaches

Overview

12 Project Partners

7 Alpine Space Countries

18 Project Observers

DURATION

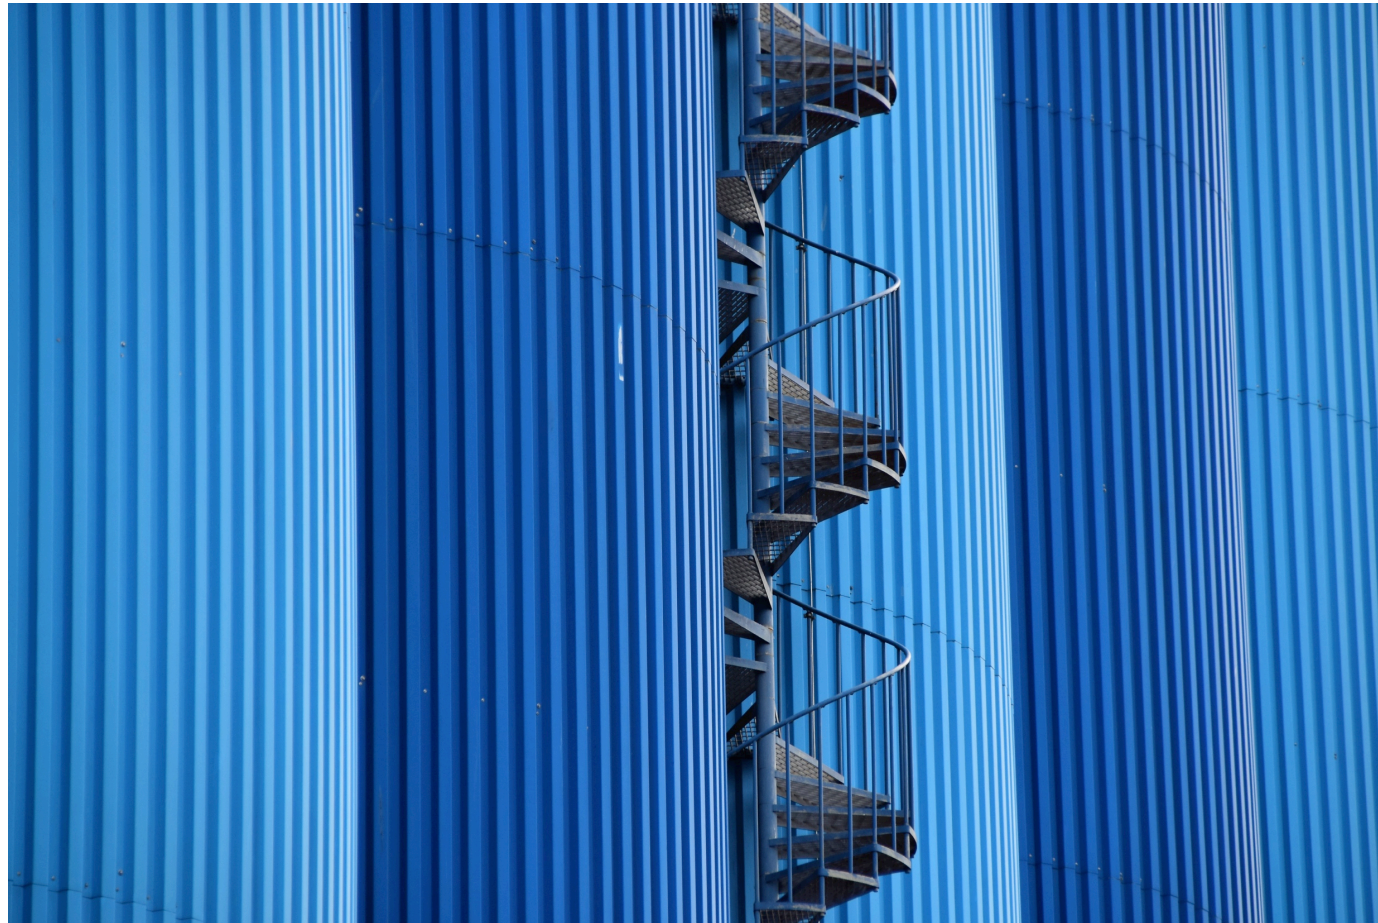

Project start date: 01/11/2016

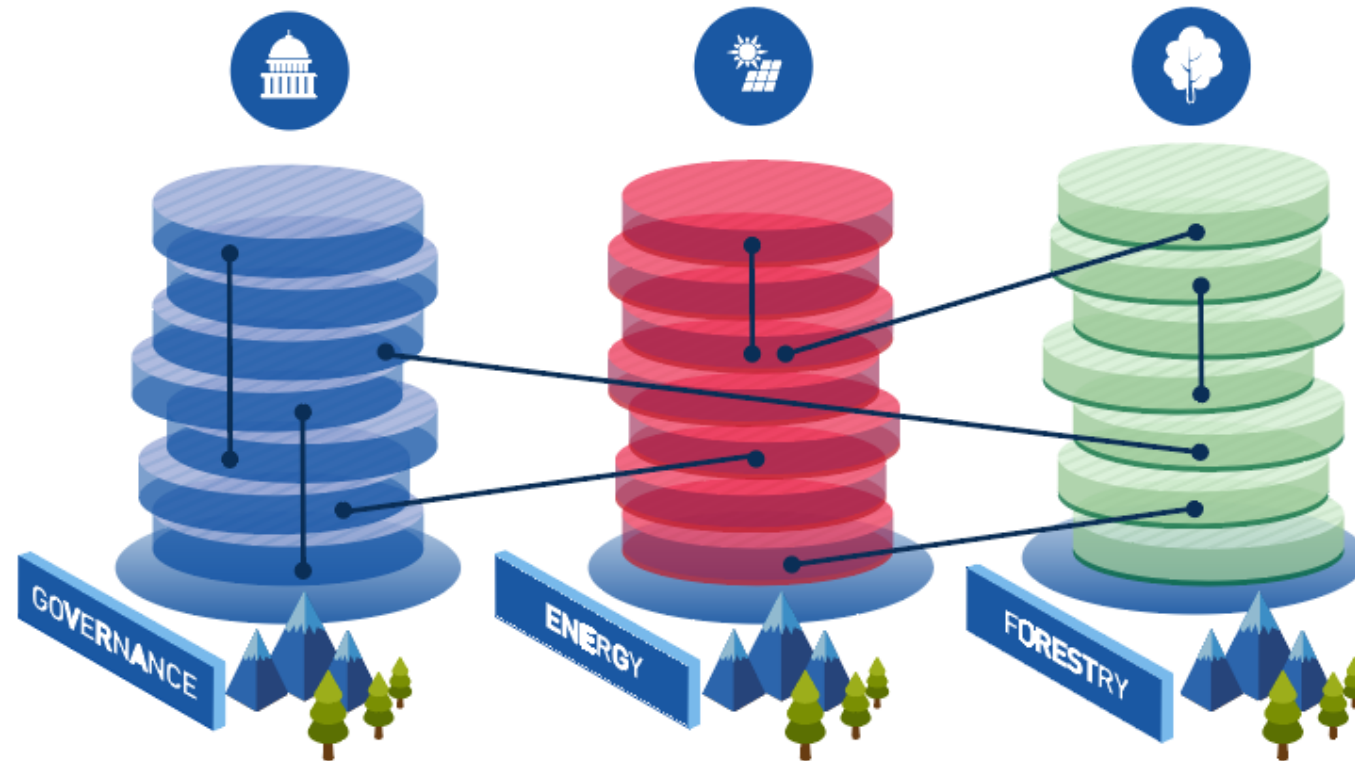

Project end date: 31/12/2019

www.alpine-space.eu/imeas

This project is co-financed by the European Regional Development Fund through the Interreg Alpine Space programme

IMEAS – actors and users

We need to **co-create** paths toward a **low-carbon sustainable energy system** and set actors into motion

IMEAS activities address:

- ✓ **Researchers**
- ✓ **Technicians** from regional and municipal agencies and PAs
- ✓ **Policy makers** from regional and municipal governance levels
- ✓ **Active civil society**

Findings

**Project
RESULTS**

Set of tools
and
guidelines

Guidelines

→ provide insights, procedures and recommendations

Tools

→ easy-to-use and open

collaboration models

integration

(across governance levels and economic sectors – policy-silos)

benchmarking

Project RESULTS

Set of tools and guidelines

Board
Main objective
The Provincial Three Rivers provincial departments and promoting meeting stakeholders
Obstacles to it
• lack of connection between
• outdated age
• difficulties in sharing
• promotion of
• poor quality of data
Main outcome
Data collection, monitoring
Keywords: biomass, energy
Energy Poverty Action

Interreg
Alpine Space

IMEAS Web Platform with tools and guidelines

Stakeholders Framework Model

Project OUTPUTS

Roadmaps on partner territories

www.alpine-space.eu/imeas

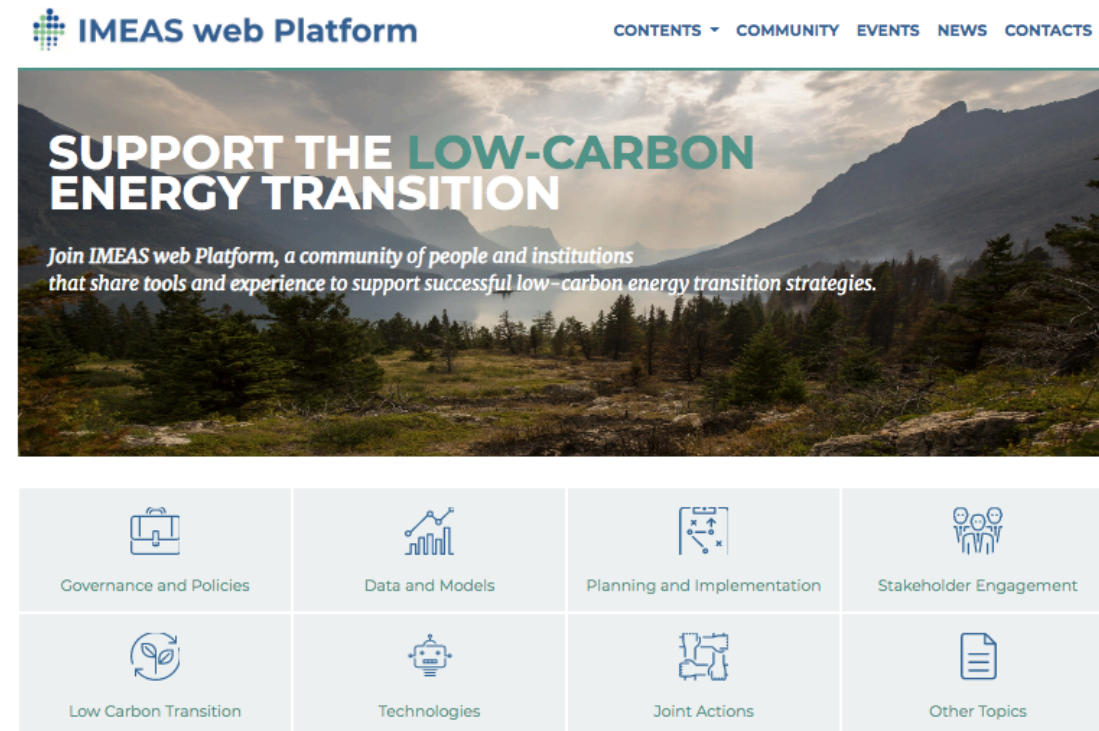

IMEAS web Platform

Access to ready-to-use **tools**, **guidelines sections**, **reference** and **documentation**

Network of **Stakeholders** and **Experts**,
people and **institutions**
Events and **News**

*Users can **share**
experience,
upload **contents** and
documentation*

www.alpine-space.eu/imeas

Our users

Technicians and officers from regional and municipal levels

can **find** easy-to-use **documentation** and **tools** from IMEAS and from the Community

can **promote** territorial **actions** and **innovative approaches**

*Photo by
Timon Studler on Unsplash*

- Upload of content (short notes, articles, etc.)
- Promotion through IMEAS social media

get in contact with people and institutions from other governance levels and economic sectors

www.alpine-space.eu/imeas

Our users

Researchers

can **promote** their **results** and **activities** to reach a larger audience

- Upload of works in the IMEAS web Platform (open access, extracts, short notes)
- Promotion through IMEAS social media

can be part of the **Community**, a **network** of people and institutions, and build new opportunities (the Community page is under improvement and will include new features)
